REFUSES TO TAKE UP RAILROAD DISPUTE

Declines to Investigate Bankruptcy Claim of Executives

PRESIDENT'S MESSAGE

Will Not Submit to Congress—Holds Interference Unwise—Railroad Executives Pleased.

Washington, Feb. 7.—President Wilson yesterday refused the request of railroad labor union representatives that he investigate railroad executives' claims before the Railroad Labor Board that the carriers must adjust wages or face bankruptcy. He also declined to submit the matter to Congress.

The President set forth his position on the appeals made to him in a telegram addressed jointly to two of the railway labor unions and to the Association of Railway Executives, who also had sent a communication to the White House.

Confidence was expressed by the President that all questions dealing with railroad labor and management might be left safely to the two bodies entrusted under the Transportation act with such matters—the Railroad Labor Board and the Interstate Commerce Commission. He accordingly informed the labor and carrier representatives that he was submitting copies of telegrams received from them to these two bodies as "the only action deemed necessary."

The President's telegram read as follows:

"I have carefully considered the several telegrams addressed to me dealing with the labor questions and railroad management now under consideration by the Railroad Labor Board in Chicago.

"The Transportation act approved February 28, 1920, to a greater extent than any previous legislation, places all questions dealing with finances and railroad management and necessary rates under the jurisdiction of the Interstate Commerce Commission, hence all questions involving the expense of operation, the necessities of the railroads and the amount of money necessary to secure the successful operation thereof, are now under the jurisdiction of the commission. At the same time, the act placed all questions of dispute between carriers and their employes and subordinate officials under the jurisdiction of the Railroad Labor Board, now sitting in Chicago.

"This board is composed of three members, constituting the labor group, representing the employes and subordinate officials of the carriers; three members constituting the public group, representing the public. So far as I am advised the board may be relied on to give careful and intelligent consideration to all questions within its jurisdiction. To seek to influence either of these bodies upon anything which has been placed with in their jurisdiction by Congress would be unwise and open to grave objection.

"It would be manifestly unwise for me, therefore, to take any action which would interfere with the orderly procedure of the Interstate Commerce Commission or of the Railroad Labor Board; and all the matters mentioned in your telegram are within the jurisdiction of one or the other of these bodies, and in their action I think we may repose entire confidence.

"In view of the foregoing, it does not seem wise to comply with your suggestion that the matter be submitted to the Congress, and the only action deemed necessary is to submit copies of the telegrams received from you and from the representatives of the railroad executives to the Interstate Commerce Commission and to the Railroad Labor Board for such action as these bodies may deem wise in the premises; this will be done."

The telegram was addressed J. F. Anderson, vice president of the International Association of Machinists; Thomas Dewitt Cuyler, chairman of the Association of Railway Executives, and E. F. Grable, grand president of the United Brotherhood of Maintenance Employes and Railway Shop Laborers.

The reply of the President to two telegrams sent by the railroad labor unions and to one telegram addressed to him by the Association of Railway Executives is understood to have been based on recommendations by Secretary of Interior Payne, who still acts as Director General of the railroad administration. The telegrams were referred to Secretary Payne when received early last week and his recommendations were forwarded to the White House Friday.

Chicago, Feb. 7.—Thomas De Witt Cuyler, chairman of the Association of Railway Executives, replied last night to President Wilson's telegram on the railroad situation by telegraphing the Chief Executive that the railroads were gratified that he had seen fit to refer the questions involved to the Interstate Commerce Commission and the Railway Labor Board.

The railway labor union leaders deferred comment on President Wilson's telegram until tomorrow, several of the chief executives of the unions being out of the city last night.

W. O. D. Case Thursday

Alleged They Failed to Obey Order of State Corporation Commission

On Thursday the Washington and Old Dominion Railway Company has been summoned to appear before the commission and show cause why they should not be fined for defying the commission's order and not putting into effect a better schedule on the Bluemont Division. The company has already been fined amounts aggregating $1,250 for failure to obey the commission's orders of December 1 calling for better service in a number of ways. The company has shown no apparent disposition to give its patrons adequate service even in the face of the commission's explicit orders and have appealed every fine to the supreme court of appeals Attorney C. Vernon Ford, of Fairfax, declared last week that he had instructions to appeal every fine levied against the company by the commission.

REVIVAL MEETING AT THE FREE METHODIST CHURCH

The revival meetings at the Free Methodist Church, 424 South Lee Street, continue to increase in interest. Rev. R. W. Sanderson preached a most excellent sermon to a large and attentive congregation yesterday morning, Last night the church was filled about to its capacity, and the attention that was given to the preaching of the old time gospel by Mr. Sanderson, was very good. Great meetings are expected this week. Mr. Sanderson is seventy-five years of age, but he is remarkably well preserved and is much more vigorous in his pulpit ministrations than many younger preachers. All are invited to come and hear him. Meeting every evening at 7.30.

SOLDIER'S PRISONERS WELCOME POLICE

Experience of Two Colored Men at Hands of Soldier With Gun

TAKE MEN ON HIKE

At Point of Pistol Soldier Makes Men Walk For Miles in Country—Was on Furlough From Walter Reed

Alfred Morgan, nineteen years old, a patient at the Walter Reed Hospital, suffering from nervousness, came over to Alexandria Saturday and went out into Fairfax county and armed with a big automatic revolver took in custody two harmless colored men, giving the names of James Coleman and Spurgeon Campbell, of 32 U Street, northeast, Washington, and marched them for several hours up and down the railroad tracks telling them they were his prisoners.

The unfortunate men shortly before 3 o'clock in the afternoon welcomed the arrival of Policemen Magner and Rawlett who took the trio in custody and brought them to head quarters.

All three men late Saturday afternoon were turned over to Sheriff J. R. Allison and his dtputy from Fairfax county and taken to the Fairfax county jail. It is thought that Morgan, will be turned over to the hospital authorities and the two colored men will be released, there being no charge against them.

Morgan obtained a five day furlough from the hospital and simply came to Alexandria on a sightseeking trip. He thought he would explore the surrounding country and accordingly proceeded toward Fairfax, following the railroad tracks. About a mile west of Alexandria he encountered the two men who came over looking for work. Their home is in Philadelphia they explained.

As soon as he saw the two men, both of whom are nineteen years of age, he displayed his pistol, and told them they were under arrest. The menacing manner of his pistol spoke louder than words. Marching both men in front and giving military commands to his prisoners. Morgan was monarch of all he surveyed for the time being. He marched them for at least three hours, going as far as Lincolnia, Fairfax, and return. The men obeyed his commands unflinchlingly as he kept his pistol in his hand marching behind them.

Morgan's appetite began to get an edge on and food was in his mind. He spied a farmhouse and commanded his prisoners to proceed. The command was obeyed. The woman whom they met explained that she would gladly give them something to eat, but her children were ill with the measles. The captain of the expedition, bowed and commanded his prisoners to "Forward March." They next visited another farmhouse. According to Morgan's own statement, corroborated by his prisoners, they did not meet with a "welcome" sign at this house, for the woman produced a shotgun and ordered them away according to Morgan.

A short time afterward the police were notified by telephone of the suspicious actions of a man wearing a soldier uniform who had in custody two colored men.

Policemen Magner and Rawlett were dispatched in a motorcycle to search for the men. Soon they ran across the trio and Policeman Magner was compelled to fire a shot over the head of Morgan to get them to halt. Morgan having his pistol in his hand at the time. The colored men were pleased when they reached police headquarters.

Their thirst was intense and they drank glass after glass of water. They were placed in cells side by side and Morgan in a cell directly opposite them. All three coversed during the evening, and Morgan in conversation with a representative of The Gazette explained that he thought possibly the men might be deserters from the army Then again he said he arrested them because they were "hobos." He was reminded that he was without authority to make arrests. He, however, said he was uncertain about this. Morgan entertained the police while incarcerated with lively songs. His father came over to Alexandria yesterday to see the lad. According to Morgan he served in the army in the Philippines, Cuba and also served on the border during the threatened Mexican trouble. He says he has been under treatment for time past for nervousness at the Walter Reed Hospital, Washington.

CASSIUS H. COCKRILL TAKES OWN LIFE

Shoots Self In Head At St. Elmo Home Early Today

WIFE'S PLUCKY FIGHT

In Scuffle to Obtain Weapon She is Shot in Face. Her Injuries Are Not Serious—Wife at Hospital

Despondent over ill health, Cassius H. Cockrill, thirty-one years old, a carpenter, employed at the Potomac railroad yards, at 5 o'clock this morning shot and killed himself while at his home and his wife, Mrs. Margaret Murphy Cockrill in a plucky effort to wrench the pistol from the hand of her husband, was accidentally shot in the side of the face by the first bullet fired which then crashed through the mirror of the dresser in the room

Mrs. Cockrill's injuries are not regarded as serious.

Following the shooting she was rushed in an ambulance to the Alexandria Hospital and treated by Dr. M. D. Delaney.

The shooting was staged at their home on Bellfonte Avenue St. Elmo, and Mrs. Cockrill and their boys, three and five years old respectively, were in the room.

When Mrs. Cockrill was seen at the hospital this morning by a representative of the Gazette she stated for the past three days her husband had been suffering from nervousness and was under medical treatment. His condition became so that he could not sleep. This morning a few minutes before the tragedy she was aroused from her slumbers when her husband pulled the pistol from beneath his pillow. She realized that he was about to shoot himself and put up a battle to wrench the weapon from his hand. During the tussle for the pistol it was discharged and the bullet struck her in the jaw and then crashed through the mirror of the dresser. She realized her inability to cope with her husband then ran with her two children down stairs, and as she did so, he fired the the bullet into his left temple, dying almost instantly. Her husband she said had no intention of shooting her.

Her sister, Miss Kate Murphy, of Del Ray, who was staying at the house for the night came to her sister's assistance and arranged for sending Mrs. Cockrill to the hospital.

The body of Cockrill was removed to Wheatley's mortuary chapel and prepared for burial.

Dr. R. J. Yates, coroner of Jefferson district, Arlington county, investigated the case and deemed an inquest unnecessary.

Cockrill was well known in this city where he had many friends.

M'ADOO BACKERS SEEK TO OUST WHITE

Forty-Nine Members of National Committee Sign Call

FIX MARCH 1 AS DATE

McAdoo Followers Aim to Seize Control of Democratic Party—White Men to Fight—Text of Telegram

Washington, Feb. 7.—George White, of Ohio, national Democratic chairman, has been served with a demand signed by 49 Democratic national committeemen and women that the committee be called into session March 1 at St. Louis, or other central place, to organize for the future

The letter says, in effect, to Chairman White:

"Here's your hat; what's your hurry?"

It precipitates the fight for control of the party organization which conservative Democratic leaders have hoped to avoid and which promises more turbulence and bitterness than has been known within the Democracy in years.

It is accepted as the striking of the first blow by leaders of the group which supported William G. McAdoo for the Democratic Presidential nomination to reorganize the party, retire Chairman White and seize control. Their ambitions are assumed to be directed toward nomination of Mr. McAdoo in 1924.

The immediate objective is to replace Mr. White with Robert W. Woolley, member of the Interstate Commerce Commission, who was a McAdoo lieutenant, or with some other McAdoo man.

The friends of Chairman White are aligning themselves here tonight to resist the overturn which this movement proposes.

The demand upon Mr. White for committee meeting follows shortly after his announcement of an executive committee to direct the national affairs of the party.

It is understood here tonight that Mr. White will lay the call before the executive committee when it meets in this city February 17 and be guided largely by the action taken then.

The letter to Mr. White signed by the 49, committee members 23 of whom are women, was made public last night by Thomas B. Love, national committeeman from Texas, who has been sometime in Washington maneuvering to bring about a committee meeting. Mr. Love was one of the ardent McAdoo backers. He has been canvassing the national committee for signatures to the appeal for a meeting. The list which he gave out as the signers of the request does not include the name of a Marylander or a Virginian.

The telegram follows:

We, the undersigned members of the Democratic National Committee, proud of the history and traditions of our party, especially of its matchless record of achievement under the leadership of our great President, Woodrow Wilson, and aware of the solemn responsibility devolving upon our party to fight constantly for the principles which have ever been its glory, to be always militantly on guard as the champion of the rights of all the people, respectfully urge you to call a meeting of the Democratic National Committee to be held Tuesday, March 1, at St. Louis or other centrally located point, in order that the forces of progress may be organized for continued contructive, patriotic action in the succeeding four years and for a righteous and richly earned victory in 1924.

We congratulate our chairman and his associates upon their valiant and patriotic efforts in the recent campaign under the leadership of that splendid Democrat, Governor James M. Cox, of Ohio, and beg to wish for Mr. White many ears of happiness and added usefulness upon the retirement which he announced shortly after November 2 his private interests would make it necessary for him to seek.

RESTRAINS U.S.B. FROM INTERFERING

Virginia Ship Corporation Secures Permanent Injunction Against Board

HEARD IN RICHMOND

Board Endeavored to Withdraw Ships —Shipping Board has Till Feb. 16 to Give Accounting of Contracts

Judge Edmund Waddill in the Federal Court at Richmond on Saturday granted the Virginia Shipbuilding Corporation a permanent injunction against the United States Shipping Board by the terms of which the Shipping Board is restrained from interferring with the operation of the ships built at Alexandria. This is the first step on the part of the shipbuilding company to assert its rights and protect its interests in connecton with its shipping board contracts.

About two months ago, the United States Transport Company which is allied with the Virginia Shipbuilding Corporation, decided to place the ships which had been built at Alexandria into the run between Atlantic and Pacific ports, because this is conceded to be a very profitable business. The Shipping Board attempted to withdraw the ships and place them out of commission along with several hundred others in the James River. Judge Waddill on Saturday commented upon the desire of the agents of the Shipping Board to operate their own vessels in this trade to the exclusion of ships which were under purchase by private interests.

Judge Waddill has also given the Shipping Board until the fourteenth of February to answer the Virginia Shipbuilding Corporation suit for an accounting growing out of their several contracts with the Board. The shipbuilding company has presented its figures to the Board but the latter has thus far failed to substantiate its charges.

Officials of the Virginia Shipbuilding Corporation felt today that matters would be adjusted very soon when the accounts are placed before a master in equity.

The first ship to sail on the new run from New York to San Francisco is the "Colin H. Livingstone" which is now receiving cargo in New York for the west coast ports.

TOO MUCH TALK SPOILS PLANS OF SMUGGLERS

New York, Feb. 7.—A ruse by a detective and the accidental overhearing of a conversation atop a Fifth avenue bus caused raids on two ships in New York Harbor, yesterday, and the seizure of more than $20,000 worth of drugs on the one, and whisky, laces, revolvers and other goods on the other.

Thomas E. Rush Customs Surveyor of the port, was riding on the top of a bus last week and overheard two men in conversation say it was an easy matter to smuggle goods off ships. He found the men were connected with the steamer Fort Pitt Bridge, which arrived recently from Vigo, Spain.

A searching party was sent to the ship and under several tons of coal, fifty-one bottles of whisky were found and in a cargo hold several thousand dollars' worth of laces, lingerie and other articles were stored.

The drug raid was carried out on board the steamship Florence Luckenbach.

Turns In Fire Alarm

Flames From Retort at Gas Plant Bring Out Apparatus

Flames issuing from the retort at the city gas works led a passerby to believe that a fire was in progress. He turned in an alarm at 8:50 o'clock last night and the fire apparatus proceeded as far as the 300 block North Lee street and finding no trace of anything looking like a fire returned to the engine house. A large throng turned out with the firemen, the churches of the city at that hour having just concluded their services.

To-day's Thought. "If a due participation of office is a matter of right, how are vacancies to be obtained? Those by death are few; by resignation, none."

Thomas Jefferson.

The City's Gas. The City's Committee on Light announced in our Saturday edition that they were compelled to reduce the supply of gas for a few days in order to make much needed repairs. They likewise state that the new machinery will be installed at an early date, which will place Alexandria on a most favorable footing for this useful commodity, for some years to come. This is welcome news, and we congratulate the Committee on its far-sighted and advanced policy.

Sleeping Sickness. For many years the scientific world has been baffled by a strange malady known as the "sleeping sickness." This was for a long period found only in certain parts of Africa. Finally, the origin was thought to be in the tse-tse fly, whose habitat was limited to some of the inland districts.

Of late years, however, the disease has occurred in Europe, and, more recently, in our own country. Several cases have been noted in the newspapers in the past few months, and it would seem as if there were other causes than the tse-tse fly.

Editorially, we know of no more agreeable ill that flesh may be heir to. It has probably been the wish of untold millions that when they stood on the brink of that mysterious river whose further shore stretches unto eternity, they might be wrapped in the soothful drapery of slumber, and lie down to pleasant dreams lulled by the music of the stygian wave.

The great minds of the human race have always avowed the close kinship of sleep and death. They have ever depicted, with all the magic of their art, the healing of the one, and the haven of the other. What says the royal bard: "The innocent sleep, that knits up the ravelled sleeve of care the death of each day's life sore labor's bath; balm of hurt minds; great nature's second course, chief nourisher in life's feast," Milton speaks of the "timely dew of sleep." Shelley exclaims "How wonderful is Death Death and his brother Sleep." Keats speaks of being half in love with easeful death! But the immortal Sancho Panza, perhaps comes nighest to the mighty heart of the multitude. He says: "Now, blessings light on him that first invented sleep! It covers a man all over, thoughts and all, like a cloak; it is meat for the hungry, drink for the thirsty, heat for the cold, and cold for the hot. It is the current coin that purchases all the pleasures of the world cheap, and the balance that sets the king and and the shepherd, the fool and the wise man, even."

For the first time in the medical history of the world, our scientists would better bestir themselves to find some remedy for this strange malady, lest all the world take to it, and seek inoculation rather than cure, and thus end the human race.

BLOWS SELF TO PIECES WITH MINE EXPLOSIVE

Granville, Pa., Feb. 7.—Lighting the fuse attached to a stick of tonobel, an explosive many times more powerful than dynamite and used in mine blasting, Joseph Youell, aged 65, an English miner, walked from the door of his home here yesterday morning with it in his overcoat pocket. He had gone a few feet only when he was blown to shreds.

The explosion was so violent that only bits of the man's body could be found. The tragedy was witnessed by a young daughter of a neighbor. She was so close that she was knocked down by the concussion.

FAILS TO RAISE THE DEAD AS AGREED—GOES TO JAIL

Miami, Fla., Febb. 7.—Joe Thomas, aged negro, contracted to bring back to life the deceased husband of a negro woman. He failed to do so, and in the woman's complaint was yesterday bound over on the charge of obtaining money under false pretenses.

Thomas was paid $15 and given the late husband's gold watch, which he claims to have buried beside the grave. The timepiece, however, evidently ticked too faintly and failed to rouse the slumbering negro.

Keep Your Blood Pure
Nature Will Do the Rest

Did you know that ninety per cent of all human ailments depend upon the condition of your blood?

Nature gives her warnings in various unmistakable ways, so that when the appetite fails, and you become weak and listless and a general run-down condition seems to take possession of the whole body, it is an unfailing sign that impurities will steadily accumulate until your general health will be seriously affected. You should recognize the importance, therefore, of very promptly cleansing out the system, and keeping the blood supply pure and robust.

Get a bottle of S. S. S. at your drugstore to-day, and note how promptly it builds up the appetite and gives new strength and vitality. Write for free literature and medical advice to Chief Medical Adviser, 152 Swift Laboratory, Atlanta, Ga.

DO YOU KNOW WHAT IS THE MATTER

When You Feel Out of Sorts and See Things With a Dull Eye

LOOK TO YOUR BLOOD

Pale Complexions, Languid Feelings, Lowered Vitality, Need More Red Blood. Take Pepto-Mangan

So many people spend week after week feeling down and out. They never stop to think that something really is the matter. They satisfy themselves by saying, "Oh, I'm not sick. I'll be all right tomorrow."

And tomorrow comes again and again. Still they feel depressed and languid, scarcely able to get around.

If you don't feel like yourself, you are not yourself. If you are weak and pale, your blood needs strengthening. You should know about Pepto-Mangan, that famous blood tonic. Physicians recommend it and prescribe it because it contains just the ingredients needed to make red blood. It renews your energy, puts you where you ought to be. Begin with it today. Get the tablets if they will be more convenient to take than the liquid. Both have the same medicinal properties. But be sure you get the genuine Pepto-Mangan. Ask for "Gude's" and be sure that the full name, "Gude's Pepto-Mangan," is on the package.—Adv.

18 JERSEY MOTORISTS ROBBED BY BANDITS

New York, Feb. 7.—One man was shot and several hundred dollars in cash was stolen early yesterday morning when four bandits, after barricading the road leading from the Baltusrol Golf Club at Short Hills, N. J., waylaid 18 persons in three automobiles emerging from the clubhouse grounds and held up the occupants.

Only because of a slight delay in the starting of another car was the robbery confined to the three machines. The shooting of one of the hold-up victims, Robert S. Huse, an attorney of Elizabeth, who is in the City Hospital there with bullets lodged in his arm and his back, also prevented the robbery of others.

The machine of James P. Thomas started first. As the Thomas car reached the end of the club driveway its passage was blocked by another machine. The strange car moved aside to let Thomas pass. Two other cars followed, one of them bearing Thomas M. Debevoise, brother of the host at the dinner and former Mayor of Summit, N. J., and the other driven by Huse, who is a member of a New York law firm. The departure of the rest of the machines was delayed through mechanical slips of the first in line.

The three machines, with that of Thomas still leading, had gone but a short distance down the road when it was found that benches, stumps of trees and other impediments had been piled in the highway. Thomas and the others left their machines to investigate.

As they did so three men emerged from the brush and commanded all to throw up their hands. A fourth man ran along the road toward the clubhouse. The trio commanded their victims to turn over their cash, making it understood they wanted none of the jewelry worn by the fashionably-gowned women.

Thomas and his party were ordered into their machine, two of the bandits also entering. A third stood on the running board and warned the hold-up victims lined along the road not to make an outcry or attempt to run away.

Unheeding, Huse made for his machine. As he ran two shots were fired at him. One lodged in his back and the other in his arm. Frightened by the noise of their shots the robbers urged Thomas to drive off, using their guns to speed him on.

Thomas was compelled to speed along the roads toward Kenilworth at about 50 miles an hour. The bandits seemed to know the country, for when they approached the outskirts of Kenilworth they forced Thomas drive to a back road. Before leaving they again searched Thomas.

RICHMOND THEATRE

This week's feature attraction at the Richmond Theatre is "The Truth About Husbands," adapted from Sir Arthur Wing Pinero's brilliant stage play, "The Profligate." It is a Whitman Bennett production released through First National and has an exceptionally well balanced cast headed by May McAvoy.

It deals in a startlingly interesting way with the age old problem of how a man before marriage cannot have his fling without the danger of his escapades confronting him after marriage. The denouement of the play is perhaps as thrilling a climax as ever screened in a society drama. H E. Herbert plays Dunatam Renshaw, a wealthy bachelor, who is supposedly typical of his class. He is not vicious, merely worldly.

MEXICANS FEAR VOLCANO DISASTER

Mexico City, Feb. 7.—Mount Popocatepetl has been emitting smoke and ashes in large quantities the past two days. The inhabitants of the villages at the foot of the volcano are fleeing in fear of a greater eruption.

A slight earthquake Friday that centered at Chiapas is reported to have opened several fissures in the earth near that city from which steam, ashes and smoke are issuing. The smoke from Popocatepetl is plainly visible from Mexico City, rising in a steady column, with occasionally a large heavy cloud. Ashes are falling sixty miles from the crater. The snow on the sides of surrounding mountains is covered with a layer of ashes.

BIDS FIANCE GOODBYE; ENDS LIFE WITH GAS

New York, Feb. 7.—Returning from a dance early yesterday, Camille Cerny, 20, of Astoria, Queens, said goodby to her fiance, went to the bath room of her home and turned on the gas.

About 4 o'clock in the morning her mother smelled gas. She traced it to the bathroom and found her daughter lying on the floor with a gas tube in her mouth. A physician worked over her for several hours in an attempt to resuscitate her, but without result.

ARCHBISHOP OF MEXICO IS TARGET OF BOMBERS

Mexico City, Feb. 7.—The residence of the Archbishops of Mexico, the most Rev. Jose Mora, was bombed early yesterday morning. About the shame time a bomb was exploded at the entrance of the building occupied by Juergens and Company. American manufacturers of jewelry. There were no casualties in either case. Remnants of the bombs were found. The front of the buildings were entirely wrecked. The Archbishop because of his energetic stand against radicalism and his activity in organizing Catholic women to combat the extremists, has received many threats, culminating in yesterday's aggression.

Richmond Man Restored By Tanlac Years Ago Hasn't Been Sick A Day Since, He States

"If I ever need a medicine again I will certainly take Tanlac for it fixed me up so fine several years ago I have never had a sick day since," said J. E. Scott, 908 N. Twenty-Seventh St., Richmond, Va.

"For two years indigestion made my life miserable. Nothing I ate agreed with me, everything seemed to ferment in my stomach and caused gas to form and rise in my throat and cut off my breath until I sometimes thought I was done for. I often unbuttoned my collar, when I felt one of these attacks coming on, so I could breathe easier.

"I was very nervous, and I know I didn't sleep all night long a single night in two years. I was all run down and had to lay off from work for two or three days at a time. Lucky for me I got Tanlac when I did, for I was about all in. I never saw anything to equal the way that medicine took hold of me and straight end out my troubles. It made me feel like a new man.

"Positively, I would not take one thousand dollars for the good it did me. The best part of it is the benefits were not temporary. My good health continues, and I still feel fine."

Tanlac is sold in Alexandria by Edgar Wardell, jr. and good druggist everywhere.

All War Investigations By House To Be Concluded Wednesday

Washington, Feb. 7.—All of the House war investigating committees will quit hearing witnesses Wednesday, after nearly two years of inquiry at home and abroad. The printed documents, including testimony and reports, run into thousands of pages.

General Pershing will not appear before the committee which heard Charles G. Dawes last week, although the general will file a statement.

Final reports will be submitted to the House before March 4, and, as happened heretofore, Democratic members will present minority views.

No action even was taken by the House on a resolution to investigate the investigating committees.

Norristown Choir Is Out On Strike

Norristown, Pa., Feb. 7.—The First Baptist Church, opposite the courthouse, was choirless yesterday for the first time in many years.

The choir is on strike because Professor W. R. Hartzell, its leader for twenty years, was superseded by George Staib, formerly soloist of Trinity Lutheran Church. The pastor, Rev. W. J. Houghton, asked ushers to bring people standing in the gallery up to the choir seats at last night's service, "as no one else seems to care to occupy them." Staib sang a solo and led the congregational singing.

Pastor Houghton denied that there is a country-wide movement for a "blue" Sunday. He declared the only legislation planned is to apply to the District of Columbia to give its working people a day of rest, as many, even in the employ of the government are obliged to work seven days a week.

COXEY THREATENING TO REPEAT '94 MARCH

New York, Feb. 7.—"General Coxey is threatening to lead another army of unemployed upon Washington as he did in 1894. Intimations to this effect were contained in a letter written by Coxey yesterday to Elbert H. Gary, chairman of the Board of the United States Steel Corporation.

Coxey appealed to Judge Gary as a leader in the industrial world to set an example in the effort to bring back normal conditions in business by reducing the price of products manufactured by the United States Steel Corporation. He declared that such a reduction would tend to stimulate business along all lines and that when prices have been cut by manufacturers labor will be more inclined to agree to a reduction in wages.

Vahey, Jr., of Boston, two former Princeton students, stopping at the Hotel Commodore, instead of notifying the police, turned detectives themselves, with the result that three men were arrested yesterday, one of whom has been identified positively as one of their assailants. All three are charged with highway robbery and will be arraigned in Yorkville Court.

10,000 Head of Elk Missing; Dead, Lost, Strayed or Stolen

Some 10,000 head of Yellowstone park elk either are dead or are "spoofing" park officials by hiding out. On ranges where thousands have been seen heretofore, only a few have appeared this year, and officials are admittedly worried.

The herd was estimated at 25,000 in 1914, but dropped to 1,700 in 1917, with less than half that number now accounted for. Unless the "alarming" shrinkage can be checked or it is found that the elk favor higher hills in open winters, such as the present, a few years, it is feared, will see the complete extermination of the herd.

Ford

THE UNIVERSAL CAR

ANNOUNCEMENT!

Mr. Edsel B. Ford, President of the Ford Motor Company, gives out the following statement:

"The price of the FORDSON Tractor has been reduced from $790.00 to $625.00, effective immediately.

"This price change has been made possible through lower costs of materials and the fact that we are now located in our new Tractor Plant with greatly increased economic manufacturing facilities in immediate connection with our foundry and machine shops and large blast furnaces where iron is poured directly from the ore, giving us maximum efficiency with the power to reduce cost of production, and down comes the price in line with our policy to market our products at the lowest possible figure without in any way affecting our high standard of quality.

"We are particularly pleased in being able to bring about this big reduction in price at this time because the farmer needs all the help we can give him and this big cut in price will be the means of placing a valuable power unit within the reach of practically every one of them, not to mention industrial and commercial concerns which likewise have benefitted through its use and are already realizing, to a much greater extent, the value as a power and hauling unit. But particularly has the FORDSON Tractor proved a most valuable factor in the saving of farm labor, at the same time increasing the per acre crop yield as well as making possible a utilization of previously uncultivated land, to say nothing of removing no end of drudgery.

"There is no question that the use of machine power on the farm is the greatest advancement made in the development of agriculture, not only in money saving and money making results, as well as raising the standards of living on the farm to a much higher level, but because of its proved value in making every type of land more productive, and consequently our desire to place the FORDSON within the reach of all.

"THERE IS NO CHANGE IN THE PRESENT FORD CAR AND TRUCK PRICES, which are already at the lowest possible figure and now with rock bottom reached on the tractor price a further reduction in price of either the car, truck or tractor is out of the question; in fact, the big price cuts have been made in anticipation of continuous maximum production and increases may be necessary before long if a large volume of new business is not obtained. Therefore, present prices of Ford products cannot be guaranteed against possible increases."

Ask for the book "The Fordson at Work," which will be supplied free of cost. Let us demonstrate the value of the Fordson on your farm, in your factory, lumber yard, coal yard, or in any general hauling or power work you have to do and let us have your order for a Fordson.
